Central Intelligence Agency Washington, D.C. 20505	
Attention: Contracting Officer	
Reference:	
Gentlemen:	
We are progressing with the pen study for the E-80 coordinatograph and expect to have new mountings which can be tested within one month. These mounting will adapt to the Staedtler ball point and the Esterbrook capillary pens, and then can be retained for future normal use with the E-80.  We are also working on a few new ideas for high speed writing and are therefore requesting that you approve a time extension to 15 November 1966 for the project complete with report.	is
